# 1. LOGIN FEATURE EPIC

**INVALID DATA 1 / USER TRIES TO LOG INTO HIS ACCOUNT USING INVALID DATA 1 - USERNAME: 1234 / PASSWORD: 1234**

The screenshot shows a Jira issue page for SCPT-1. The title is "User tries to log into his account using invalid data 1". The description box contains the following text:

The user is trying to log into his account by introducing his Username:1234 and Password: 1234 (Negative Functional Test)

Pre-conditions: The browser page must be open to [Swag Labs](#)

Step 1: Write in the username field the data 1234

Expected result 1: In the username field the data 1234 appears (Passed)

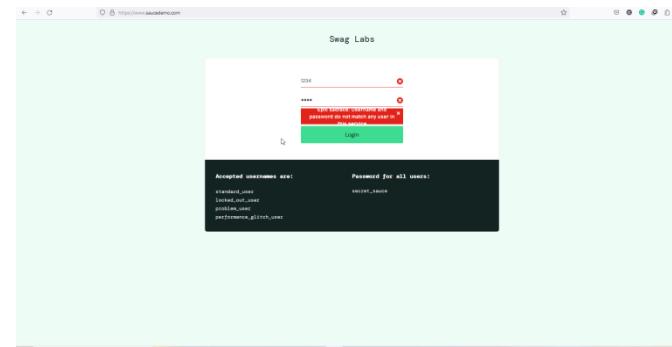

Step 2: Write in the password field the data 1234

Expected result 2: In the password field the data 1234 appears (Passed)

Step 3: Click on the Login green button

Expected result 3: The page is saying "Epic sadface: Username and password do not match any user in this service" and the user can't log into his account (Passed)

Below the description are two attachments, both named "1.png" and created on "02 Sep 2023, 07:20 PM". There is also a comment input field with placeholder "Add a comment..." and a tip "Pro tip: press M to comment".

# 1. LOGIN FEATURE EPIC

**INVALID DATA 2 / USER TRIES TO LOG INTO HIS ACCOUNT USING INVALID DATA 2 - USERNAME: "" (SPACEBAR) / PASSWORD: "" (SPACEBAR)**

The screenshot shows a Jira issue page for a login feature epic. The issue is titled "User tries to log into his account using invalid data 2". The description field contains test steps and expected results for a negative functional test. It includes screenshots of the Swag Labs login page showing invalid credentials. The issue details show it was created by Cosmin O on August 28, 2023, and updated on September 2, 2023.

**Description:**

The user is trying to log into his account by introducing his Username: "" and Password: "" (Negative Functional Test)

Pre-conditions: The browser page must be open to [Swag Labs](#).

Step 1: Write in the username field the data: "" (space bar)

Expected result 1: In the username field the data: "" (space bar) appears (Passed)

The screenshot shows the Swag Labs login page with a list of accepted usernames: standard\_user, test\_user, problem\_user, and performance\_glitch\_user. The password field is labeled "secret\_sauce".

The screenshot shows the Swag Labs login page displaying an error message: "Epic sadface: Username and password do not match any user in this service". The accepted usernames and password are listed below the error message.

# 1. LOGIN FEATURE EPIC

**INVALID DATA 3 / USER TRIES TO LOG INTO HIS ACCOUNT USING INVALID DATA 3 - USERNAME: STANDARD\_USER / PASSWORD: SECRET\_123**

The screenshot shows a Jira issue page for a test case titled "User tries to log into his account using invalid data 3". The issue is assigned to Cosmin O and is part of the "Login feature" sprint. The story point estimate is listed as "None". The reporter is also Cosmin O. The issue was created on September 2, 2023, at 7:40 PM, updated at 8:17 PM, and resolved at 8:17 PM. The description details the test steps: Step 1: Write in the username field the data standard\_user; Step 2: Write in the password field the data secret123; Step 3: Click on the Login green button. Expected results: 1. In the username field the data standard\_user appears (Passed); 2. In the password field the data secret123 appears (Passed); 3. The page is saying "Epic sadface: Username and password do not match any user in this service" and the user can't log into his account (Passed). Two attachments are shown: 2.png and 1.png, both taken on 02 Sep 2023, 08:17 PM.

# 2. SHOPPING CART FEATURE EPIC

## 2. THE USER IS TRYING TO PLACE THE ORDER AND BUY THE ITEMS ADDED TO THE SHOPPING CART PREVIOUSLY (POSITIVE FUNCTIONAL TEST)

# 2. SHOPPING CART FEATURE EPIC

## 3. THE USER IS TRYING TO MODIFY THE QUANTITY OF THE ITEMS ADDED TO THE SHOPPING CART (POSITIVE FUNCTIONAL TEST) (FAILED)

>

**BUG REPORT:**

The image displays two side-by-side Jira issue pages. Both issues are titled "SCPT-17" and have the status "Done".

**Left Issue (Functional Test):**

- Description:** User tries to modify the quantity of products that appear in the cart.
- Pre-conditions:** The user is trying to modify the quantity of the items added to the shopping cart (Positive Functional Test).
- Steps to reproduce:**
  - Step 1: Click on the cart logo on the top right side of the page
  - Step 2: Change the number at QTY field of the items placed in the cart
- Expected result:** The shopping cart page is updated with the new quantity of items for the product (Failed)

**Right Issue (Bug Report):**

- Description:** User can't modify the quantity of the items that are placed in the cart.
- Pre-conditions:** The browser page must be open to <https://www.saucedemo.com/cart.html> and the user must be logged into his account successfully and must have a product added to his shopping cart already
- Steps to reproduce:**
  - Step 1: Click on the cart logo on the top right side of the page
  - Step 2: Change the number at QTY field of the items placed in the cart
- Actual result:** The user can't modify the quantity of the item Sauce Labs Backpack added to the cart by any means.
- Expected result:** The user can change the quantity of the item Sauce Labs Backpack added to the cart. (Failed)

The image shows two screenshots of the Saucedemo shopping cart page (<https://www.saucedemo.com/cart.html>) in a web browser.

**Screenshot 1 (Initial State):**

- The cart contains one item: "Sauce Labs Backpack" (QTY: 1).
- The total price is \$29.99.
- Buttons: "Continue Shopping" and "Checkout".

**Screenshot 2 (After Failed Attempt):**

- The cart still contains one item: "Sauce Labs Backpack" (QTY: 1).
- The total price is \$29.99.
- Buttons: "Continue Shopping" and "Checkout".

A large orange circle is drawn over the second screenshot to highlight the lack of visual feedback or error message indicating that the quantity was not modified.

# 2. SHOPPING CART FEATURE EPIC

## 4. THE USER IS TRYING TO REMOVE THE SHOPPING CART A NEW PRODUCT (POSITIVE FUNCTIONAL TEST)

The screenshot shows a Jira ticket interface. The title is "User tries to remove new products from the shopping cart". The description states: "The user is trying to remove the shopping cart a new product (Positive Functional Test). Pre-conditions: The browser page must be open to <https://www.saucedemo.com/cart.html> and the user must be logged into his account successfully and must have a product added to his shopping cart already." Step 1: Click on the cart logo in the top right side of the page. Expected result 1: The Your Cart page with the product Sauce Labs Backpack item opens in the browser (Passed) Step 2: Click on the remove red button that is on the right of the item added to the cart. Expected result 2: The shopping cart page appears without the product Sauce Labs Backpack (Passed)." The attachments section shows two screenshots: "1.png" and "2.png", both taken on "11 Sep 2023, 11:50 PM". Below the ticket, there is an activity feed with a comment placeholder "Add a comment...".

The screenshot shows two views of the Saucedemo shopping cart page. The left view shows a single item, "Sauce Labs Backpack", with a price of "\$29.99" and a "Remove" button. The right view shows the cart after the item has been removed, with a "Continue Shopping" button and a "Checkout" button.

# 2. SHOPPING CART FEATURE EPIC

## 5. THE USER IS TRYING TO PLACE THE ORDER AND COMPLETE THE PURCHASE WITHOUT AN ITEM ADDED TO THE SHOPPING CART (NEGATIVE FUNCTIONAL TEST) → BUG REPORT:

SCPT-17 / SCPT-25

The user is trying to place the order and complete the purchase without an item added to the shopping cart (Negative Functional Test)

Description

Pre-conditions: The browser page must be open to <https://www.saucedemo.com/cart.html> and the user must be logged into his account successfully;

Step 1: Click on the cart logo in the top right side of the page

Expected result 1: The Your Cart page with no product item opens in the browser (Passed)

Step 2: Click on the checkout green button

Expected result 2: The Checkout: You Information page appears (Passed)

Step 3: The user writes Jon in the First name field

Expected result 3: The Joe name appears in the First name field (Passed)

Step 4: The user writes Doe in the Last name field

Expected result 4: The Doe name appears in the Last name field (Passed)

Step 5: The user writes 33112 code in the zip/postal code field

Expected result 5: The zip/postal code 33112 appears in the zip/postal code field (Passed)

Step 6: The user clicks on the green continue button
